

O'Callaghan Hotels Dublin.

As part of a significant overall IT investment we were seeking a solution to assist in reining in spending. We needed a solution which could manage our 4 Dublin hotels. In Eazipurchase we found the perfect answer. It is simple to manage, simple to use and infinitely scalable and extremely flexible. It has transformed our understanding and control of spending. It transcends Food and Beverage to general purchases such as Bed Linen, Advertising etc.

In our first year alone we recorded savings of 18% on Food and Beverage purchases. We are looking forward to dynamic savings in the general purchases area which we are now implementing.

Productivity is vastly improved as Chefs and Bar Managers are not tied up with phoning suppliers, chasing deliveries etc.

Due to the well thought out business process of Eazipurchase our procurement area is handled in a totally professional manner.

The paper trail has diminished enormously. Misunderstandings with regards to Purchases and Deliveries have been eliminated. Pricing control is easily and accurately managed, no more time consuming chasing of Credits

We now have total transparency with regard to purchases. At a glance I can monitor Purchasing levels and exposure in all areas.

Supplier ratings and quality levels are at my fingertips.

We are now planning on implementing this solution in our overseas operations.

Martin Cooley Group General Manager
